

# FIREWIPES®

YOUR FIRST LINE OF DEFENSE IN DECON

## FREQUENTLY ASKED QUESTIONS

### Frequently Asked Questions

#### What is a Firewipe®?

- The Firewipe is an 8" x 12" 100% viscose biodegradable/compostable wipe infused with cleansing compounds for use on all external dermal areas.

#### Does a Firewipe prevent cancer?

- No, a Firewipe is used to cleanse the skin of hazardous fireground contaminants and minimize exposure time to potential carcinogens.

#### How large is a single Firewipe?

- The Firewipe is 8" x 12" in size.

#### What are the ingredients in a Firewipe?

- [Click here to learn more.](#)

#### Where can I use the Firewipe?

- The Firewipe can be used on all external dermal areas.

#### What is the shelf life of a Firewipe?

- Every Firewipe has a 3-year warranty from the date of purchase. With proper storage, they can last much longer. Please contact Firewipes directly with any warranty questions.

#### Where to store the Firewipe?

- It is best to store them in a cool and dry environment. However, with their triple film packaging, they are durable enough to keep in most normal storage areas.

#### Is the Firewipe scented?

- Firewipes have no added fragrance which means there is no added scent to the formula.

#### Can I flush a Firewipe?

- In a pinch, a Firewipe can be used on all external dermal areas. But due to the 100% viscose design of the wipe, they are not flushable and should not be discarded in a Porta-Potty.

#### Where can I buy a Firewipe?

- Firewipes can be purchased through any one of our approved **distributors** or directly from our online store by [CLICKING HERE](#) or by calling: (844) WIPE-IT-DOWN | [\(844\) 947-3483](#)
